Factors which are material for the purpose of assessing the market risks associated with Bond

The Bonds may not be a suitable investment for all investors. Each potential investor in the Bonds must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Bonds, the merits and risks of investing in the Bonds and the information contained or incorporated by reference in this Securities Note and/or Registration Document or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Bonds and the impact the Bonds will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Bonds, including where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understand thoroughly the terms of the Bonds and be familiar with the behaviour of the financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

1. Risk factors

All investments in interest bearing securities have risk associated with such investment. The risk is related to the general volatility in the market for such securities, varying liquidity in a single bond issue as well as company specific risk factors. The Bonds may not be a suitable investment for all investors. Each potential investor in the Bonds must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should have sufficient knowledge and experience to make a meaningful evaluation of the Bonds, the merits and risks of investing in the Bonds. An investment in the Bonds entails significant risks and is suitable only for investors who understand the risk factors associated with this type of investment and who can afford a loss of all or part of its investment.

The main risks, in the view of the Issuer, related to these specific bonds are described below. Risks related to the Issuer are described in the Registration Document.

Risks relating to call options on the Bonds

The terms and conditions of the Bonds (the "Bond Terms") will provide that the Bonds shall be subject to optional redemption by the Issuer at their outstanding principal amount, plus accrued and unpaid interest, plus in some cases a premium calculated in accordance with the terms and conditions of the Bond Terms. It may not be possible for the holders of Bonds (the "Bondholders") to reinvest proceeds at an effective interest rate as high as the interest rate on the Bonds.

Risks relating to change of control and other put option events

Upon the occurrence of specific change of control or other put option events affecting the Issuer, the Bondholders will have a right to require the Issuer to redeem the Bonds at 101% of their principal amount, plus accrued and unpaid interest. The Issuer's ability to repurchase the Bonds upon such a change of control event may be limited by the Issuer's access to funds at the time of the redemption and the Issuer's other debt agreements.

A trading market that provides adequate liquidity may not develop

There is no existing market for the Bonds, as they will constitute new securities, and there can be no assurance given regarding the future development of a trading market for the Bonds. Even though the Issuer will apply for listing of the Bonds on the Oslo Stock Exchange, the Issuer has not entered into any market making scheme for the Bonds and potential investors should note that it may be difficult or even impossible to trade and sell the Bonds on the secondary market, and the Bonds may not be readily accepted as collateral for loans or other liabilities.

The trading price of the Bonds may be volatile

Historically, the market for non-investment grade debt has been subject to disruptions that have caused substantial volatility in the prices of securities similar to the Bonds, and the subordinated nature of the Bonds may add to such volatility. Any such disruptions could adversely affect the prices at which investors may sell their Bonds. In addition, subsequent to their initial issuance, the Bonds may trade at a discount from their initial placement, depending on the prevailing interest rates, the market for similar bonds, the performance of the Issuer and other factors, many of which are beyond the Issuer's control.

Currency exchange risks or adverse tax consequences

The Bonds will be denominated and payable in USD. If a Bondholder is a non-USD investor, an investment in the Bonds will entail currency exchange related risks due to, among other factors, possible significant changes in the value of the USD to other relevant currencies. Depreciation of the USD against other relevant currencies could cause a decrease in the effective yield of the Bonds below their stated coupon rates and could result in a loss to Bondholders when the return on the Bonds is translated into the currency by reference to which a Bondholder measure the return on its investments. There may be tax consequences for a Bondholder as a result of any foreign currency exchange gains or losses resulting from its investment in the Bonds. A Bondholder should consult its

tax advisor concerning the tax consequences to Bondholders of acquiring, holding and disposing of the Bonds.

Modification of the Bonds and waivers may be implemented without the consent

The Bond Terms include provisions for convening Bondholder meetings and thus, decisions may be made by defined majority of the Bondholders, implementing changes that are binding for all Bondholders. This could potentially have negative implications for Bondholders who do not wish to proceed with a certain resolution, as they will still be subject to the agreed changes despite their opposition.

Debt may rank pari passu with or be senior to the Bonds

According to the terms and conditions of the Bonds, the Issuer may incur or permit to subsist certain indebtedness, which may rank pari passu or even be senior to the Bonds, including but not limited to, additional secured debt under a Tap Issue, secured debt under any Permitted Additional Secured Bond Issues, unsecured debt and by increasing the total amount under the SSRCF. Any such indebtedness may reduce the amount recoverable by Bondholders upon liquidation of the Issuer.

The Bondholders will vote jointly with the bondholders under any Permitted Additional Secured Bond Issues

Pari Passu Creditors (as defined in the Intercreditor Agreement) includes both the Bondholders and other bondholders under any Permitted Additional Secured Bond Issues. Hence, if any Permitted Additional Secured Bond Issue has a larger issue amount than the aggregate of the Issue Amount of the Bonds and any Tap Issues, the bondholders under such Permitted Additional Secured Bond Issue will be able to have a decisive influence on any decision under the Intercreditor Agreement which requires the Majority Pari Passu Creditors (as defined in the Intercreditor Agreement).

The Issuer is exposed to credit risk

The Issuer's income is dependent on receiving payments from a limited number of counterparties to contracts, and hence the Issuer may be exposed to financial loss if such counterparties fail to meet their obligations. If significant amounts are not paid, either by failure of one or several counterparties to obtain sufficient funds to cover their obligations towards the Issuer, this could have a material adverse impact on the Issuer and result in liquidity issues, including issues relating to service of interest under the Bonds.

The Issuer may incur substantial debt in the future

The Issuer may incur substantial indebtedness in the future, either under the bond terms for the Bonds, by increasing the SSRCF, pari passu secured debt, unsecured debt or as subordinated debt. The issuer may, subject to strategic and/or marked conditions, further incur substantial indebtedness in the course of its operation and or M&A activities, including Deferred Claims. Such new debt or other obligations, will increase the related risks that it faces, and may also result in the Issuer having incurred a significant indebtedness in addition and compared to the Bonds. The Issuer is currently under and may in the future incur obligations that do not constitute indebtedness as defined under the agreements governing the debt arrangements. As such obligations may not fall within the definition of Total Debt, the Issuer may incur debt or obligations which are not subject to the financial covenants in the bond terms. This entails that the Issuer may, at its discretion, incur substantial liabilities which are not restricted by the financial covenants in the bond terms. Such incurrence of liabilities will influence the degree to which the Issuer is leveraged, which could have important consequences to the Issuer's business and holders of the Bonds, including, but not limited to: (i) making it difficult for the Issuer to satisfy the Issuer's obligations with respect to the Bonds or other indebtedness; and (ii) increasing the Issuer's vulnerability to, and reducing its flexibility to respond to, general adverse economic and industry conditions.

The Issuer will require a significant amount of cash to service future debt and sustain its operations

The Issuer's ability to make payments on, or repay or refinance, any debt (including the Bonds), and to fund working capital and capital investments, will depend on its future operating performance and ability to generate sufficient cash. This depends on the success of its business strategy and is largely subject to the situation of the industry which the Issuer operates in, which may be affected by general economic, financial, competitive, market, legislative, regulatory, technical and other factors. As the Issuer's future operating performance and ability to generate sufficient cash are also subject to the risks discussed in these "Risk Factors", many of which are beyond the Issuer's control. The Issuer cannot assure that its business will generate sufficient cash flow from operations as the industry is sensitive to a number of factors as mentioned above. Further, the Issuer cannot assure that future debt and equity financings will be available to it in an amount sufficient to enable it to pay its debt, including the Bonds, or to fund its other liquidity needs. The Issuer cannot give assurance that it will be able to refinance any debt on commercially reasonable terms or at all.

Any absence of such required cash flow from operations or future debt and equity financings, may result in failure by the Issuer to make payments on debt on a timely basis and would likely result in a reduction of its credit quality, which could also harm its ability to incur additional indebtedness. With reference to the Issuer's industry, which may be affected by several elements as mentioned above, there can be no assurance that any assets that the Issuer may elect to sell can be sold or that, if sold, the timing of such sale will be acceptable and the amount of proceeds realised will be sufficient to satisfy its debt service and other liquidity needs. If the Issuer is unsuccessful in any of these efforts, it may not have sufficient cash to meet its obligations, which could cause an event of default under any debt arrangements, including the Bonds, and could result in the debt being accelerated, lending reserves and certain bank accounts being frozen, triggering of cross-default provisions, enforcement of security and the Issuer being forced into bankruptcy or liquidation, which could result in an investor losing its investment in the Issuer's Bonds in its entirety.

The Issuer is subject to restrictive debt covenants

The terms of the Bonds will restrict, among other things, the Issuer's ability to: (i) incur additional debt and issue guarantees; (ii) make certain payments, including dividends and other distributions, with respect to outstanding share capital; (iii) repay or redeem subordinated debt or share capital; (iv) create or incur certain liens and security arrangements; (v) make certain investments or loans; (vi) sell, lease or transfer assets; (vii) acquire assets or companies; (viii) expand into unrelated businesses; and (ix) merge or consolidate with other entities. All of these limitations are subject to significant exceptions and qualifications. The Issuer's compliance with these covenants could reduce its flexibility in conducting its operations, particularly by: (i) affecting the Issuer's ability to react to changes in market conditions, whether by increasing its vulnerability in relation to unfavorable economic conditions or by preventing the Issuer from profiting from an improvement in those conditions; (ii) affecting the Issuer's ability to pursue business opportunities and activities that may be in its interest; (iii) limiting the Issuer's ability to obtain certain additional financing in order to meet its working capital requirements, make investments or acquisitions and carry out refinancings; and (iv) forcing the Issuer to dedicate a significant portion of its cash flows to payment of the sums due for such loans, thus reducing its ability to utilize its cash flows for other purposes.

The Issuer's working capital needs are difficult to forecast and may be subject to significant and rapid increases

The Issuer is unable to predict with certainty its working capital needs going forward. This is primarily due to possible new acquisitions or divestments of current assets, large capital requirements for general operating expenses, exploration and development expenditures. The Issuer is to a limited extent able to mitigate working capital fluctuations, including through the use of Permitted Sales Contracts, under which hydrocarbon deliveries may be settled pre-delivery. Nevertheless, as the future level of income is also difficult to predict with any certainty due to uncertainties concerning prices for oil and gas and actual production levels, forecasting capital requirements is difficult and subject to substantial uncertainty, which could adversely affect the Issuer's ability to repay the

principal of its indebtedness and interest, including the Bonds, and adversely affect the Issuer's ability to obtain required funds on satisfactory terms, or at all, including to refinance the Bonds at their maturity.

Value of the Transaction Security

If the Issuer defaults on the Bond, the Bondholders will be secured only to the extent of the value of their security and the underlying assets (the "Transaction Security"), which will be shared with (i) other pari passu indebtedness, and (ii) super senior ranking financing, as permitted under the terms of the Bonds. If the value of the Transaction Security is less than the value of the claims of the Bondholders together with the claims of the other secured creditors, those claims may not be satisfied in full. The fair market value of the Transaction Security is subject to fluctuations based on factors that include, among others, the Issuer's ability to implement its business strategy, the ability to sell the Transaction Security in an orderly sale, general economic conditions, the availability of buyers and similar factors. The amount to be received upon a sale of any Transaction Security would be dependent on numerous factors, including, but not limited to, the actual fair market value of the Transaction Security at such time, general, market and economic conditions and the timing and the manner of the sale. There also can be no assurance that the Transaction Security will be saleable and, even if saleable, the timing of any liquidation or foreclosure is uncertain. To the extent that liens, retention of title arrangement, rights, easements or other security and quasi-security arrangement encumber the Transaction Security, the beneficiaries of such rights have or may exercise rights and remedies with respect to the relevant assets that could adversely affect the value and scope of the Transaction Security and the ability of the Bond Trustee to enforce and realize the collateral. Values from appraisals of the value of any of the security (or underlying transaction security) may not be correct.

Difficulties in enforcing the Transaction Security

The Transaction Security might be subject to defects, encumbrances, liens and other liabilities permitted under the Bond Terms. The existence of any such exceptions, defects, encumbrances, liens and other imperfections could adversely affect the value of the security, as well as the ability of the Bond Trustee to enforce or realise the Transaction Security. Furthermore, the ranking of the Transaction Security can be affected by a variety of factors, including, among others, the timely satisfaction of perfection requirements, statutory liens or recharacterisation under the laws of certain jurisdictions. There can be no assurance that the Transaction Security are, or will be, free and clear from third-party prior ranking security rights or other interests arising by operation of law. Any enforcement of a mortgage over petroleum licences is subject to a governmental approval of the prospective buyer. Furthermore, enforcement of Transaction Security will be subject to statutory enforcement laws which, among other things, may impact how the enforcement shall be done and the time such process will take. Finally, enforcement of Transaction Security will be subject to the terms of the Intercreditor Agreement between Bondholders, super senior ranking creditors and other pari passu ranking creditors which share the Transaction Security. The Intercreditor Agreement will in certain instances impose restrictions on the ability to enforce and may entail enforcement decisions (or the decision to abstain from enforcement) being decided against the will of the Bondholders.

Any such rights or interests would adversely affect the value of the Transaction Security and the ability of the Bond Trustee to enforce or realise such security. The Transaction Security will be subject to practical problems generally associated with the realisation of security. The Bond Trustee may also need to obtain the consent of a third party to enforce a Transaction Security in certain jurisdictions. No assurance can be given that the Bond Trustee will be able to obtain any such consent or that the consents of any third parties will be given when required to facilitate a foreclosure on such assets. Accordingly, the Bond Trustee may not have the ability to foreclose upon those assets, and the value of the Transaction Security may decline significantly.

The Issuer will have control of the Transaction Security

For as long as no event of default has occurred and is continuing, the Issuer will remain in possession of the Transaction Security and be free to sell, transfer, vote, operate and otherwise manage and

dispose over the Transaction Security, unless otherwise prohibited by the Bond Terms, the Security Documents or the other finance documents. If the Transaction Security are not managed appropriately and/or the Issuer dispose of the Transaction Security, then the value of the Transaction Security may be reduced. Such a reduction in the value of the Transaction Security may be detrimental to the interest of the Bondholders.

Throughout the lifetime of the Bonds, the Transaction Security and the Issuer's operations will be subject to third party risks and losses. The Issuer intends to maintain insurances to mitigate such risks, but certain risks are uninsurable (in whole or in part) and self-insurance may be applied by the Issuer for certain assets (or parts thereof). There is always a risk that insurance proceeds may not fully compensate the Issuer for losses and that deductibles might be significant, that certain assets are not easily replaced and that insurance proceeds may be reduced, or fall away, as a result of negligence or wilful misconduct on the part of the Issuer. If Transaction Security, which are insured, becomes damaged or a total loss, then no assurance can be given that the Bond Trustee will have security over, or any rights in, the insurance claim arising in respect thereof (i.e. the substitute of the relevant Transaction Security).

Risks relating to super senior creditors

Alongside the Bond Terms, the Issuer may incur liabilities under the SSRCF and under any Permitted Hedging. The SSRCF and any Permitted Hedging entered into with an SSRCF lender shall rank on a super senior basis in priority to the Bonds with respect to the enforcement proceeds from the Transaction Security. The Bonds will be secured on a pari passu basis with the other Secured Parties in respect of the Transaction Security, subject to the super senior status of the SSRCF (and any refinancing thereof) and the Hedging Liabilities relating to any Permitted Hedging entered into with an SSRCF lender. The RCF Creditors and Hedge Counterparties (provided that the Hedge Counterparties also are SSRCF lenders) will receive (i) the proceeds from any enforcement of the Transaction Security and (ii) any payments following any other enforcement event prior to the Bondholders. Such super senior creditors may have conflicting interests with the Bondholders in a default and enforcement scenario, including an incentive to take enforcement steps which may be detrimental to the value of the Bonds or the prospect of recovery for Bondholders. In general, and in these situations in particular, there can be no assurance that any enforcement proceeds will be sufficient to cover all Secured Obligations.

The Bondholders' Meeting will be opened and, unless otherwise decided by the Bondholders' Meeting, chaired by the Bond Trustee. If the Bond Trustee is not present, the Bondholders' Meeting will be opened by a Bondholder and be chaired by a representative elected by the Bondholders' Meeting (the Bond Trustee or such other representative, the "**Chairperson**").

No vote may be cast by any nominee if the Bondholder has presented relevant evidence to the Bond Trustee pursuant to Clause 3.3 (*Bondholders' rights*) stating that it is the owner of the Bonds voted for. If the Bondholder has voted directly for any of its nominee registered Bonds, the Bondholder's votes shall take precedence over votes submitted by the nominee for the same Bonds.
- (d) Any of the Issuer, the Bond Trustee and any Bondholder has the right to demand a vote by ballot. In case of parity of votes, the Chairperson will have the deciding vote.

A Summons for a repeated Bondholders' Meeting shall also contain the voting results obtained in the initial Bondholders' Meeting.
- (c) A repeated Bondholders' Meeting may only be convened once for each original Bondholders' Meeting. A repeated Bondholders' Meeting may be convened pursuant to the procedures of a Written Resolution in accordance with Clause 15.5 (*Written Resolutions*), even if the initial meeting was held pursuant to the procedures of a Bondholders' Meeting in accordance with Clause 15.2 (*Procedure for arranging a Bondholders' Meeting*) and vice versa.

15.5 Written Resolutions

- (a) Subject to these Bond Terms, anything which may be resolved by the Bondholders in a Bondholders' Meeting pursuant to Clause 15.1 (*Authority of the Bondholders' Meeting*) may also be resolved by way of a Written Resolution. A Written Resolution passed with the relevant majority is as valid as if it had been passed by the Bondholders in a Bondholders' Meeting, and any reference in any Finance Document to a Bondholders' Meeting shall be construed accordingly.
- (b) The person requesting a Bondholders' Meeting may instead request that the relevant matters are to be resolved by Written Resolution only, unless the Bond Trustee decides otherwise.
- (c) The Summons for the Written Resolution shall be sent to the Bondholders registered in the CSD at the time the Summons is sent from the CSD and published at the Bond Trustee's web site, or other relevant electronic platform or via press release.

- (ii) the time limit within which the Bond Trustee must have received all votes necessary in order for the Written Resolution to be passed with the requisite majority, which shall be at least ten (10) Business Days but not more than fifteen (15) Business Days from the date of the Summons (the "**Voting Period**").
- (f) Only Bondholders of Voting Bonds registered with the CSD on the Relevant Record Date, or the beneficial owner thereof having presented relevant evidence to the Bond Trustee pursuant to Clause 3.3 (*Bondholders' rights*), will be counted in the Written Resolution.
- (g) A Written Resolution is passed when the requisite majority set out in paragraph (e) or (f) of Clause 15.1 (*Authority of the Bondholders' Meeting*) has been obtained, based on a quorum of the total number of Voting Bonds, even if the Voting Period has not yet expired. A Written Resolution will also be resolved if the sufficient numbers of negative votes are received prior to the expiry of the Voting Period.
- (h) The effective date of a Written Resolution passed prior to the expiry of the Voting Period is the date when the resolution is approved by the last Bondholder that results in the necessary voting majority being obtained.
- (i) If no resolution is passed prior to the expiry of the Voting Period, the number of votes shall be calculated at the time specified in the summons on the last day of the Voting Period, and a decision will be made based on the quorum and majority requirements set out in paragraphs (e) to (g) of Clause 15.1 (*Authority of the Bondholders' Meeting*).

 - (i) complying with instructions of the Bondholders; or
 - (ii) taking any action at its own initiative,

will not, in the reasonable opinion of the Bond Trustee, be covered by the Issuer or the relevant Bondholders pursuant to paragraphs (e) and (g) of Clause 16.4 (*Expenses, liability and indemnity*), the Bond Trustee may refrain from acting in accordance with such instructions, or refrain from taking such action, until it has received such funding or indemnities (or adequate security has been provided therefore) as it may reasonably require.

- (i) The Bond Trustee shall give a notice to the Bondholders before it ceases to perform its obligations under the Finance Documents by reason of the non-payment by the Issuer of any fee or indemnity due to the Bond Trustee under the Finance Documents.
- (j) The Bond Trustee may instruct the CSD to split the Bonds to a lower nominal value in order to facilitate partial redemptions, write-downs or restructurings of the Bonds or in other situations where such split is deemed necessary.

16.3 Equality and conflicts of interest

- (a) The Bond Trustee shall not make decisions which will give certain Bondholders an unreasonable advantage at the expense of other Bondholders. The Bond Trustee shall, when acting pursuant to the Finance Documents, act with regard only to the interests of the Bondholders and shall not be required to have regard to the interests or to act upon or comply with any direction or request of any other person, other than as explicitly stated in the Finance Documents.

The Bond Trustee shall not be responsible for any indirect or consequential loss. Irrespective of the foregoing, the Bond Trustee shall have no liability to the Bondholders for damage caused by the Bond Trustee acting in accordance with instructions given by the Bondholders in accordance with these Bond Terms.
- (b) The Bond Trustee will not be liable to the Issuer for damage or loss caused by any action taken or omitted by it under or in connection with any Finance Document, unless caused by its gross negligence or wilful misconduct. The Bond Trustee shall not be responsible for any indirect or consequential loss.
- (c) Any liability for the Bond Trustee for damage or loss is limited to the amount of the Outstanding Bonds. The Bond Trustee is not liable for the content of information provided to the Bondholders by or on behalf of the Issuer or any other person.
- (d) The Bond Trustee shall not be considered to have acted negligently in:
 - (i) acting in accordance with advice from or opinions of reputable external experts; or
 - (ii) taking, delaying or omitting any action if acting with reasonable care and provided the Bond Trustee considers that such action is in the interests of the Bondholders.
- (e) The Issuer is liable for, and will indemnify the Bond Trustee fully in respect of, all losses, expenses and liabilities incurred by the Bond Trustee as a result of negligence by the Issuer (including its directors, management, officers, employees and agents) in connection with the performance of the Bond Trustee's obligations under the Finance Documents, including losses incurred by the Bond Trustee as a result of the Bond Trustee's actions based on misrepresentations made by the Issuer in connection with the issuance of the Bonds, the entering into or performance under the Finance Documents, and for as long as any amounts are outstanding under or pursuant to the Finance Documents.

- (f) The Issuer shall cover all costs and expenses incurred by the Bond Trustee in connection with it fulfilling its obligations under the Finance Documents. The Bond Trustee is entitled to fees for its work and to be indemnified for costs, losses and liabilities on the terms set out in the Finance Documents. The Bond Trustee's obligations under the Finance Documents are conditioned upon the due payment of such fees and indemnifications. The fees of the Bond Trustee will be further set out in the Bond Trustee Fee Agreement.
- (g) The Issuer shall on demand by the Bond Trustee pay all costs incurred for external experts engaged after the occurrence of an Event of Default, or for the purpose of investigating or considering (i) an event or circumstance which the Bond Trustee reasonably believes is or may lead to an Event of Default or (ii) a matter relating to the Issuer or any Finance Document which the Bond Trustee reasonably believes may constitute or lead to a breach of any Finance Document or otherwise be detrimental to the interests of the Bondholders under the Finance Documents.
- (h) Fees, costs and expenses payable to the Bond Trustee which are not reimbursed in any other way due to an Event of Default, the Issuer being Insolvent or similar circumstances pertaining to any Obligors, may be covered by making an equal reduction in the proceeds to the Bondholders hereunder of any costs and expenses incurred by the Bond Trustee or the Security Agent in connection therewith. The Bond Trustee may withhold funds from any escrow account (or similar arrangement) or from other funds received from the Issuer or any other person, irrespective of such funds being subject to Transaction Security, and to set-off and cover any such costs and expenses from those funds.
- (i) As a condition to effecting any instruction from the Bondholders (including, but not limited to, instructions set out in Clause 14.3 (*Bondholders' instructions*) or Clause 15.2 (*Procedure for arranging a Bondholders' Meeting*)), the Bond Trustee may require satisfactory Security, guarantees and/or indemnities for any possible liability and anticipated costs and expenses from those Bondholders who have given that instruction and/or who voted in favour of the decision to instruct the Bond Trustee.

16.5 Replacement of the Bond Trustee

- (a) The Bond Trustee may be replaced by a majority of 2/3 of Voting Bonds in accordance with the procedures set out in Clause 15 (*Bondholders' Decisions*), and the Bondholders may resolve to replace the Bond Trustee without the Issuer's approval.
- (b) The Bond Trustee may resign by giving notice to the Issuer and the Bondholders, in which case a successor Bond Trustee shall be elected pursuant to this Clause 16.5, initiated by the retiring Bond Trustee.
- (c) If the Bond Trustee is Insolvent, or otherwise is permanently unable to fulfil its obligations under these Bond Terms, the Bond Trustee shall be deemed to have resigned and a successor Bond Trustee shall be appointed in accordance with this Clause 16.5. The Issuer may appoint a temporary Bond Trustee until a new Bond Trustee is elected in accordance with paragraph (a) above.

- (d) The change of Bond Trustee shall only take effect upon execution of all necessary actions to effectively substitute the retiring Bond Trustee, and the retiring Bond Trustee undertakes to co-operate in all reasonable manners without delay to such effect. The retiring Bond Trustee shall be discharged from any further obligation in respect of the Finance Documents from the change takes effect, but shall remain liable under the Finance Documents in respect of any action which it took or failed to take whilst acting as Bond Trustee. The retiring Bond Trustee remains entitled to any benefits and any unpaid fees or expenses under the Finance Documents before the change has taken place.
- (e) Upon change of Bond Trustee, the Issuer shall co-operate in all reasonable manners without delay to replace the retiring Bond Trustee with the successor Bond Trustee and release the retiring Bond Trustee from any future obligations under the Finance Documents and any other documents.

16.6 Security Agent

- (a) The Bond Trustee is appointed to act as Security Agent for the Bonds, unless any other person is appointed. The main functions of the Security Agent may include holding Transaction Security on behalf of the Secured Parties and monitoring compliance by the Issuer and other relevant parties of their respective obligations under the Transaction Security Documents with respect to the Transaction Security on the basis of information made available to it pursuant to the Finance Documents.
- (b) The Bond Trustee shall, when acting as Security Agent for the Bonds, at all times maintain and keep all certificates and other documents received by it, that are bearers of right relating to the Transaction Security in safe custody on behalf of the Bondholders. The Bond Trustee shall not be responsible for or required to insure against any loss incurred in connection with such safe custody.
- (c) Before the appointment of a Security Agent other than the Bond Trustee, the Issuer shall be given the opportunity to state its views on the proposed Security Agent, but the final decision as to appointment shall lie exclusively with the Bond Trustee.
- (d) The functions, rights and obligations of the Security Agent may be determined by a Security Agent Agreement to be entered into between the Bond Trustee and the Security Agent, which the Bond Trustee shall have the right to require each Obligor and any other party to a Finance Document to sign as a party, or, at the discretion of the Bond Trustee, to acknowledge. The Bond Trustee shall at all times retain the right to instruct the Security Agent in all matters, whether or not a separate Security Agent Agreement has been entered into.
- (e) The provisions set out in Clause 16.4 (*Expenses, liability and indemnity*) shall apply *mutatis mutandis* to any expenses and liabilities of the Security Agent in connection with the Finance Documents.

17. AMENDMENTS AND WAIVERS

17.1 Procedure for amendments and waivers

- (a) The Issuer and the Bond Trustee (acting on behalf of the Bondholders) may agree to amend the Finance Documents or waive a past default or anticipated failure to comply with any provision in a Finance Document, provided that:
 - (i) such amendment or waiver is not detrimental to the rights and benefits of the Bondholders in any material respect, or is made solely for the purpose of rectifying obvious errors and mistakes;
 - (ii) such amendment or waiver is required by applicable law, a court ruling or a decision by a relevant authority; or
 - (iii) such amendment or waiver has been duly approved by the Bondholders in accordance with Clause 15 (*Bondholders' Decisions*).
- (b) Any changes to these Bond Terms necessary or appropriate in connection with the appointment of a Security Agent other than the Bond Trustee shall be documented in an amendment to these Bond Terms, signed by the Bond Trustee (in its discretion). If so desired by the Bond Trustee, any or all of the Transaction Security Documents shall be amended, assigned or re-issued, so that the Security Agent is the holder of the relevant Security (on behalf of the Bondholders). The costs incurred in connection with such amendment, assignment or re-issue shall be for the account of the Issuer.

17.2 Authority with respect to documentation

If the Bondholders have resolved the substance of an amendment to any Finance Document, without resolving on the specific or final form of such amendment, the Bond Trustee shall be considered authorised to draft, approve and/or finalise (as applicable) any required documentation or any outstanding matters in such documentation without any further approvals or involvement from the Bondholders being required.

17.3 Notification of amendments or waivers

- (a) The Bond Trustee shall as soon as possible notify the Bondholders of any amendments or waivers made in accordance with this Clause 17, setting out the date from which the amendment or waiver will be effective, unless such notice according to the Bond Trustee's sole discretion is unnecessary. The Issuer shall ensure that any amendment to these Bond Terms is duly registered with the CSD.
- (b) Prior to agreeing to an amendment or granting a waiver in accordance with paragraph (a)(i) of Clause 17.1(a)(i) (*Procedure for amendments and waivers*), the Bond Trustee may inform the Bondholders of such waiver or amendment at a relevant information platform.

- (c) The Bond Trustee may, if the Defeasance Amount cannot be finally and conclusively determined, decide the amount to be deposited to the Defeasance Account in its discretion, applying such buffer amount as it deems necessary.

A defeasance established according to this Clause 18.4 may not be reversed.

Enclosure I: Flow of Funds

ATTACHMENT 3 INTERCREDITOR PRINCIPLES

The Intercreditor Agreement is based on the following key intercreditor principles:

Capitalised terms below shall have the same meaning as ascribed to them in the Term Sheet, unless otherwise defined below.

Parties: To establish the relative rights of the creditors under various financing arrangements, the Intercreditor Agreement will be entered into (or acceded to where relevant) by and among the following parties (the "**Parties**"):

1. OKEA ASA as issuer of the Bonds (the "**Issuer**");
2. each Guarantor (together with the Issuer, the "**Debtors**");
3. any Group Company that is a lender under any Intercompany Claims (the "**Intra-Group Lenders**");
4. the subordinated creditors in respect of any Subordinated Loan (the "**Subordinated Creditors**");
5. any RCF Creditor;
6. the Pari Passu Creditors (represented by the relevant bond trustees)
7. any hedge counterparties in respect of the Hedging Liabilities (the "**Hedge Counterparties**");
8. the Bond Trustee; and
9. the bond trustee for OKEA04 and any Permitted Additional Secured Bond Issue;
10. the Security Agent.

Ranking and priority: The Senior Liabilities owed by the Debtors to the Primary Creditors shall rank in right and priority of payment (subject to the super senior ranking of the RCF Liabilities and Hedging Liabilities with respect to the application of proceeds set out below) *pari passu* and without any preference between them.

Any Guarantee and the Transaction Security shall rank and secure the Senior Liabilities (subject to the super senior ranking of the RCF Liabilities and the Super Senior Hedging Liabilities with respect to the application of proceeds set out in section "Application of proceeds" below) *pari passu* and without any preference between them (but only to the extent that such Guarantee or Transaction Security is expressed to secure those liabilities and provided that Transaction Security over any escrow account or VPS account opened and maintained for the purpose of facilitating settlement of bonds shall only secure the bond issues in respect of which the same has been opened and maintained).

	<p>The Subordinated Liabilities and the Intra-Group Liabilities are postponed and subordinated to the Liabilities owed by the Debtors to the Primary Creditors under the Debt Documents.</p>
<p>Option to purchase and hedge transfer:</p>	<p>Each Pari Passu Creditor Representative may after a Distress Event and subject to certain customary conditions being fulfilled and after having given each other Pari Passu Creditor Representative the opportunity to participate in such purchase or transfer, by giving not less than ten (10) days' notice to the Security Agent, require the transfer to them of all, but not part, of the rights, benefits and obligations in respect of the RCF Liabilities and (at the same time or after the transfer of the RCF Liabilities) the Super Senior Hedging Liabilities.</p>
<p>Permitted payments in respect of Intra-Group Liabilities and Subordinated Liabilities:</p>	<p>The Debtors may make payments in respect of Intra-Group Liabilities from time to time when due until an event of default has occurred and is continuing and of which an acceleration notice has been served under any of the relevant Debt Documents.</p> <p>Prior to the final discharge date of the Primary Creditors, neither the Issuer nor any other Debtor shall, and the Issuer shall procure that no other Group Company will, make any payment of Subordinated Liabilities, other than (i) prior to the occurrence of an acceleration event under the relevant Debt Documents, to the extent permitted under the Bond Terms and the Super Senior Finance Documents, or (ii) following an acceleration event, with the consent of the Instructing Group. The Debt Documents shall not prohibit or restrict any roll-up or capitalisation of interest, fees or any other amount payable in respect of any Intra-Group Liabilities or Subordinated Liabilities.</p>
<p>Effect of insolvency event:</p>	<p>After the occurrence of an insolvency event in relation to any Group Company, any party entitled to receive a distribution out of the assets of that Group Company (in the case of a Primary Creditor, only to the extent that such amount constitutes Enforcement Proceeds) in respect of Liabilities owed to that party shall, to the extent it is able to do so, direct the person responsible for the distribution of the assets of that Group Company to make that distribution to the Security Agent (or to such other person as the Security Agent shall direct) until the Liabilities owing to the Secured Parties have been paid in full.</p> <p>The Security Agent shall apply such distributions made to it in accordance with section "Application of proceeds" below.</p>
<p>Turnover of receipts:</p>	<p>If at any time prior to the final discharge date of all Primary Creditors, any Creditor receives or recovers any payment on account or in respect of any Liabilities other than as permitted by the Intercreditor Agreement, that Creditor will promptly pay or distribute an amount equal to that receipt or recovery to the Security Agent for application in accordance with section "Application of proceeds" below.</p>

Bond Trustee protection:

Notwithstanding the foregoing or any other provision in the Intercreditor Agreement, the Bond Trustee shall not be liable for any failure by any Bondholder to comply with any obligation such Bondholder may have under the Intercreditor Agreement, including to make any payment or repayment, or any distribution or redistribution (including, without limitation, under section "Turnover of receipts" above), to the Security Agent (or any other Creditor or person) of any amount received or recovered by that Bondholder under or in respect of any Debt Document.

Furthermore, the Bond Trustee shall have no obligation to pay, repay, distribute or redistribute, or ensure the payment, repayment, distribution or redistribution of, any amount received or recovered by any Bondholder under or in respect of any Debt Document which should have been paid, repaid, distributed or redistributed by such Bondholder to the Security Agent (or any other Creditor or person) pursuant to the terms of the Intercreditor Agreement, and shall not be liable for any damages, costs or losses incurred by any Creditor or any other person as result of any such failure by any Bondholder referred to above.

Enforcement of Transaction Security and Guarantees:

If either the Required Super Senior Creditors or the Majority Pari Passu Creditors (the "**Instructing Primary Creditors**") wish to issue instructions as to enforcement of any Transaction Security or Guarantee ("**Enforcement Instructions**"), the creditor representatives (and, if applicable, the Hedge Counterparties) representing the Instructing Primary Creditors shall deliver a copy of those proposed Enforcement Instructions (an "**Initial Enforcement Notice**") to the Security Agent and the Security Agent shall promptly forward such Initial Enforcement Notice to each creditor representative and each Hedge Counterparty which did not deliver such Initial Enforcement Notice.

Subject to the exceptions set out below, the Security Agent will act in accordance with Enforcement Instructions received from the Majority Pari Passu Creditors.

If (a) the Majority Pari Passu Creditors have not either (i) made a determination as to the method of enforcement they wish to instruct the Security Agent to pursue (and notified the Security Agent of that determination in writing) or (ii) appointed a financial adviser to assist them in making such a determination, within 3 months of the date of the Initial Enforcement Notice or (b) the discharge date of the Super Senior Creditors has not occurred within 6 months of the date of the Initial Enforcement Notice, then the Security Agent will act in accordance with Enforcement Instructions received from the Required Super Senior Creditors until that discharge date has occurred.

If an insolvency event is continuing with respect to a Debtor then the Security Agent will, to the extent the Required Super Senior Creditors elect to provide such Enforcement Instructions, act in accordance with Enforcement Instructions received from the Required Super Senior Creditors until the discharge date of the Super Senior Creditors has occurred.

If the Majority Pari Passu Creditors have not either (a) made a determination as to the method of enforcement they wish to instruct the Security Agent to pursue

(and notified the Security Agent of that determination in writing) or (b) appointed a financial adviser to assist them in making such a determination, and the Required Super Senior Creditors (i) determine in good faith (and notify the other Creditor representatives, the Hedge Counterparties and the Security Agent) that a delay in issuing Enforcement Instructions could reasonably be expected to have a material adverse effect on the ability to effect a distressed disposal or on the expected realisation proceeds of any enforcement and (ii) deliver Enforcement Instructions which they reasonably believe to be consistent with section "Enforcement principles" below before the Security Agent has received any Enforcement Instructions from the Majority Pari Passu Creditors, then the Security Agent will act in accordance with the Enforcement Instructions received from the Required Super Senior Creditors until the discharge date of the Super Senior Creditors has occurred.

Notwithstanding anything to the contrary set out herein, there shall be no independent enforcement rights for any Hedge Counterparty.

Manner of enforcement:

If the Transaction Security is being enforced, the Security Agent shall enforce the Transaction Security in such manner as the Instructing Group shall instruct (provided that such instructions are consistent with section "Enforcement principles" below) or, in the absence of any such instructions, as the Security Agent considers in its discretion to be appropriate and consistent with those principles.

The other Secured Parties shall not have any independent power to enforce, or have recourse to, any of the Transaction Security or to exercise any right, power, authority or discretion arising under the documents evidencing the terms of the Transaction Security except through the Security Agent.

Non-distressed disposals:

If a disposal of an asset is a non-distressed disposal, the Security Agent shall, if the non-distressed disposal is permitted under the Debt Documents for the Super Senior Creditors and the Pari Passu Creditors, be irrevocably authorised (without any consent or authority of any Creditor) to, among others things, release the Transaction Security or any claim over the relevant asset or the relevant Group Company's other property.

If any disposal proceeds are required to be applied in mandatory prepayment of the RCF Liabilities or the Pari Passu Liabilities, then those disposal proceeds shall be applied in accordance with the Debt Documents and the consent of any other party shall not be required for that application.

Distressed disposals:

If a disposal of an asset is a distressed disposal, the Security Agent shall be irrevocably authorised:

- (a) to release the Transaction Security and any other claim over the relevant asset; and

- (b) if the relevant asset consists of shares or ownership interests in a Debtor or a holding company of a Debtor (each, a "**Disposed Entity**"):
 - (i) to release any Transaction Security granted by the Disposed Entity or over the shares thereof, or over any assets of any subsidiary of the Disposed Entity;
 - (ii) to release the Disposed Entity, or any subsidiary of the Disposed Entity, from all or any part of its liabilities under the Debt Documents;
 - (iii) to release any other claim of any Creditor or another Debtor over that Disposed Entity's assets or over the assets of any subsidiary of that Disposed Entity;
 - (iv) to release the Disposed Entity and any other Group Company from all or any part of its liabilities arising out of or in connection with that distressed disposal, or dispose of (including by way of appropriation) all or any part of those liabilities;
 - (v) to dispose of (including by way of appropriation) all or any part of the Liabilities owing by the Disposed Entity or any subsidiary of the Disposed Entity; and/or
 - (vi) to dispose of (including by way of appropriation) all or any part of the Liabilities owing to the Disposed Entity or any subsidiary of the Disposed Entity,

in each case, (A) that may, in the discretion of the Security Agent, be considered necessary or desirable and (B) on behalf of the relevant Creditors, Secured Parties and Debtors.

The net proceeds of each distressed disposal (and each debt disposal) shall be paid, or distributed, to the Security Agent for application in accordance with section "Application of proceeds" below.

For the purposes of distressed disposals, the Security Agent (a) shall act on the instructions of the Instructing Group, or in the absence of any such instructions, as the Security Agent sees fit and (b) may engage, or approve the engagement of, pay for and rely on the services of a financial adviser in accordance with section "Enforcement principles" below.

Application of proceeds:

All amounts from time to time received or recovered by the Security Agent (a) pursuant to the terms of any Debt Document, (b) in connection with the realisation or enforcement of all or any part of the Transaction Security or (c) in connection with the making of any demand under any Guarantee (collectively, the "**Recoveries**") shall be applied by the Security Agent in the following order of priority:

- (a) in discharging any sums owing to the Security Agent, any receiver, any delegate or any other Primary Creditor representatives (for its own account);

- (b) in payment or distribution to:
 - (i) the RCF Agent on its own behalf and on behalf of the RCF Creditors for application towards the discharge of the RCF Liabilities; and
 - (ii) the Super Senior Hedge Counterparties for application towards the Super Senior Hedging Liabilities,

in each case, on a pro rata basis;

- (c) in payment or distribution to the Hedge Counterparties (other than any Super Senior Hedge Counterparties) or Creditor representatives in respect of any Pari Passu Liabilities on its own behalf and on behalf of the Pari Passu Creditors for which it is the Creditor representative for application towards the Pari Passu Liabilities on a pro rata basis;
- (d) if none of the Debtors is under any further actual or contingent liability under any document evidencing the terms of any Senior Liabilities, in payment or distribution to any person to whom the Security Agent is obliged to pay or distribute in priority to any Debtor; and
- (e) the balance, if any, in payment or distribution to the relevant Debtor,

subject to certain customary exceptions in respect of prospective liabilities and treatment of cash cover in respect of the RCF Finance Documents.

Enforcement principles:

The main enforcement principles are as follows:

- (a) it shall be the primary and overriding aim of any enforcement of any Transaction Security to maximise, to the extent consistent with a prompt and expeditious realisation of value, the value realised from any such enforcement;
- (b) the Security Agent shall be under no obligation to appoint a financial adviser or to seek the advice of a financial adviser unless expressly required to do so by the Intercreditor Agreement; and
- (c) any fairness opinion from an independent, reputable financial adviser who is recognized for its experience with the assets and transactions in question, will be conclusive evidence that the enforcement objective set out above has been met.

Additional Debt:

The Intercreditor Agreement and the Transaction Security will not prevent, or otherwise inhibit, the refinancing, replacement, increase or restructuring of any of the Liabilities in whole or in part (including by way of additional permitted indebtedness) (each, a "**Debt Refinancing**") which is undertaken in accordance with the terms of the Debt Documents and customary provisions will be included to allow any relevant agent, trustee and the Security Agent to make necessary amendments to the Debt Documents and Transaction Security to enable the establishment of each new Debt Refinancing on the basis described above.

Other terms:	The Intercreditor Agreement will contain customary terms, including related to (i) appointment of and the role, powers and discretions of the Security Agent, (ii) change of Security Agent and indemnities for the benefit of the Security Agent, (iii) information and information sharing, (iv) costs and expenses, (v) notices, (vi) consents, amendment and override, (vii) invalidity and (viii) creditor accession.
Governing law and jurisdiction	The Intercreditor Agreement shall be governed by Norwegian law and be subject to the jurisdiction of the Oslo District Court (Oslo tingrett).
